

Feeding Program for Children attending FKC Nokor Krov School

It is rare for a Cambodian child to eat a warm meal for breakfast and often they do not get a warm meal for lunch. In our endeavors to keep children healthy, strong and have active learning capacity we propose providing a hot breakfast and lunch to the children weekly. We have approximately 140 children studying at our Nokor Krao School in one day at this time – on the average 70 in the morning and 70 in the afternoon. The meals will be varied each week and will include in the rotation a combination of rice, various kinds of noodles, meat, vegetables, fruit and bread. Following are three options:

1. Two breakfasts and one lunch per week. \$970 per month
Outcome: Meals will be prepared for 140 children per time will receive a hot meal to give them strength and energy.
210 meals served per week.
2. Two breakfasts and two lunches per week. \$1,390 per month
Outcome: Meals will be prepared for 140 children per time. The children will receive a hot meal to give them strength and energy.
280 meals served per week.
3. Three breakfasts and three lunches per week. \$2,040 per month.
Outcome: 420 children will receive a hot meal to give them strength and energy.
420 meals served per week.

(Cost of cook included in the budgets)

One-off set-up cost for cooking supplies:

Stainless steel plates, stove, small plates, dishes, spoons and supplies:

\$939

You can sponsor one of these programs and make a difference in the daily life of many children. Perhaps you and a group of friends or workmates can join together to sponsor a program.
